

3/11/2024

PLEASE BE ADVISED:

The standard universal analyzers (1001249695 or 1001147542) cannot be used on the JLG Compact Crawler Machines (Serial Number C17xxxxxx). For these machines, please use part number 18223100, RamHino Pro Analyzer Kit. This kit will provide all cables, as well as instructions. Please see the below illustrations for further assistance.

The laptop used by service personnel to run RamHino is plugged into the maintenance position receptacle on the left side of the machine using the optional maintenance cable, as shown in Figure 8-1.

Figure 8-1 RamHino Laptop Connection to the Compact Crawler

Instructions on how to connect RamHino to the machine are shown in the RamHino instruction manual. However, all that is necessary is to connect it to any part of the CANbus line.

Distinta BASE: 18223100 - KIT RAMHINO DOPPIO CONNETTORE

Component	Description	UoM	Qty	Qty	NetWeight
26592800	ADATTATORE PCAN-USB (IPEH-002021)	NR	1	1	0.11
